I must say that ever since we established the holy institution of Family Prace in our home it has been one of the greatest blessings: that ever Heaven has showered upon has always helped us to live as good privately as we appeared

Canada was at that time rising on mercanuled prosperity. The use of steam and electricity was bringing new life to the country, life that tingled even in its extremities, and there was a strong desire every-where to take full advantage of these remarkable developments.

They came across in an old sailer, and were eight weeks on the voyage, which now accomplished in less than that number if days. It should be ex-plained, however, that the ship got considerably out of her course and drifted away to not far off the coast of Greenland.

They had been specially provided for on hoard, thanks to the generous thoughfulness of one of their sons, but even at its best the long jourinvolved discomfort enough to

Landing fuully, they came on to Barrie. They were to have been net at Toronto-by, one of Gideon's relatives, but he had, before they arrived, left unexpectedly on a bridge-building undertaking, Gideon had, no difficulty, in obtaining employment, however, Although a carpenter by trade, he had worked on the farm at home, and now in the land of his desire he was like most

Scots immigrants, ready to adapt himself to whatever the new condi-tions might demand. He therefore contracted out to a farmer not many miles away from Barrie.

That first eventful journey he and That arist eventual journey he and Grannic could not readily, forget. They had never been used to any-thing like the rough corduroy roads over which they now had to travel, over which they now had to travel, and to add to their difficulty, Gran-nie was worn out for want of sleep on the long and troublesome joint on the long and troublesome joint home more welcome to new arrivals than the little shack that await-table was the and of their was ed them at the end of their weary march, for they had to cover much of the distance on foot.

A SECRET OF INFLUENCE.

If there are some things, such as great wealth or great learning to which the simple Salvationist makes no particular claim, he cannot be putdone in the matter of personal service and practical sacrifice in the anterests of the people. To deliver Rearned and even powerful sermons is one thing, and many of our Field Officers have become attractive and forceful public speakers and pleaders. But to spend hour after hour, day after day, in visiting the poor counselling them in their perplexisies, succouring them in temptation, stursing them in sickness, comforting them in sorrow, and, in short, willingly giving one's best powers in humble, hidden, sometimes thankless and always exacting service—that is illeggether another thing. And ju this respect the true Salvationist is, we venture to say, without a rival. Whether preaching salvation on
